CAREER SUMMARY

I am a pragmatic, diligent and talented Front-end web Developer with 2 years experience and expertise in HTML, CSS, JavaScript, CSS frameworks and libraries (Bootstrap, Material UI), API integration, React, Next.js and State Management for web applications. Worked in a team of 5 using Agile methodology(Sprint) to develop an E-mart web store, deployed to the Git-Hub and hosted in 8 weeks. Boosted the conversion rate of an existing website with improved code and design increasing sales by 25%. Seeking to work in an educating and rewarding environment, attain professional proficiency, and contribute immensely to its progress.

WORK EXPERIENCE

Front-End Web Developer

The Bulb Africa, Lagos

April 2022 - Till Present

- Developed and hosted a back-end database using MongoDB, Prisma and Postman and Nodejs as the run time server.
